

TURKEY HOCK AND NECK CUTTER

Model CPP

The Jarvis Model CPP -- pneumatically powered hock and neck cutter for turkey, goose, ostrich, pork and cattle.

JARVIS

- Absolutely the most durable, trouble-free hock and neck cutter available.
- No springs - pneumatic blade closing and opening insures no down time due to spring failure.
- More power - the Model CPP does not have to overcome springs; all air pressure is converted into cutting force.
- Rugged construction for low maintenance.
- Constructed from corrosion resistant materials for optimum hygiene.
- Meets national and international requirements for safety and hygiene.

DURABLE - NO SPRINGS - NO DOWNTIME

TURKEY HOCK AND NECK CUTTER
